

Financial Mindset Worksheet

Financial Education 101

If you are going to pick rich for your first question, then you must understand this point.

If you want to change your reality; you need to change your mentality!

In order to hang with the rich, you need to know the slang of the rich. Who you hang around with determines your net worth, not your account balance. You are rich or poor based on who you know. If your friends are poor, then they cannot be counted on for financial support. If your friends are rich, then they can support deals and finance deals. Therefore, your net worth is your network. If you want others to invest in you, then you need to invest in you. If you don't believe in yourself, then you can't be surprised that no one else will want to invest time or finances in your abilities as well. You are your greatest asset. Invest in your financial education. You need to read. If you want to succeed, then you need to read.

1.) Write down the financial class that you want to become your reality!

2.) What do the rich work to accomplish?

3.) What are some of the terms that the rich speak?

4.) What is the tax strategy of the rich?

5.) What gets subsidized?
